

RESTITUTION LAW REVIEW

General Editor Professor Francis Rose, Barrister, University of Bristol

Consultant Editor Professor Peter Birks, QC DCL FBA, All Souls College, Oxford

The liveliest and most important areas of modern practice are those concerned with the Law of Restitution and related areas. **“You could not deal with the more difficult ends of Equity, Trusts and Property Law without it, nor is it safe to contemplate remedies in Tort without taking into account Restitutionary awards, nor Administrative Law without Restitutionary claims against Public bodies.”** Restitution issues arise in all areas - Banking, Commercial Law, Company Law, Employment Law, Family Law, Insurance, Tax and many others. Restitution is becoming a regular feature of all Law School syllabuses.

The **Restitution Law Review** is at the forefront in providing the latest information on developments in the subject internationally. It has regularly stimulated developments in the subject and since its first issue has regularly been cited at the highest level in courts throughout the world.

Restitution Law Review

- brings together all the leading sources of the Law of Restitution worldwide
- covers recent cases, legislation, law reform proposals, publications and all other activities in the field of Restitution
- includes a Regional Digest summarising all developments in major jurisdictions across the world
- contains analysis and discussion of leading issues of the moment
- reproduces original materials for ready reference
