

## UPCOMING RELEASE INFORMATION

### THE LAW OF CIVIL PENALTIES

**Deniz Kayis, Eloise Gluer and Samuel Walpole (eds)**

This collection of essays considers the purpose of civil penalties, the principles underpinning their imposition, and their deployment in different areas of the law as important tools of regulation and enforcement. The collection features a variety of different perspectives – judges, barristers, solicitors, academics, regulators, policy-makers and NGOs – from which it examines the doctrine of the law of civil penalties and reflects upon potential further development in this critical area of regulatory law and practice.

### CONTENTS

Foreword - *The Hon Robert French AC*

Introduction - *Deniz Kayis, Eloise Gluer and Samuel Walpole*
